PROFILE

"I am Faizan, currently studying web development at Aptech. I have skills in JavaScript, HTML, CSS, Bootstrap 5, and MS Office. I am eager to apply my knowledge practically and gain hands-on experience through an internship. I am passionate about learning new things and tackling challenges. My goal is to contribute to the team and bring positive value to the organization. I am excited to grow professionally and enhance my skills in the field of web development."

PROJECT

2030 - PRESENT

website Zara Therapy Clinic

About

I developed a website for Zara Therapy Clinic, where I created multiple pages to provide users with a complete overview of the clinic's services. The website includes the following pages:

- Home Page : A welcoming introduction to the clinic.
- About : Information about the clinic's mission and values.
- Contact : Contact details and a form for inquiries.
- All Therapists : Profiles of the clinic's therapists.
- Products : A section showcasing products offered by the clinic.
- Gallery : A visual display of the clinic's facilities and events.
- Services: A detailed list of all therapies and treatments provided.
