OBJECTIVE:

I am a passionate and quick-learning Frontend Developer with a solid foundation in HTML, CSS, JavaScript, Bootstrap, Tailwind, and intermediate-level React. Currently enrolled at Virtual University, I am actively building React projects to sharpen my skills. I am looking for an opportunity as a Frontend Intern where I can grow, learn from experienced professionals, and take steps toward my long-term goal of becoming an AI Engineer and a strong problem solver. I am also eager to contribute meaningfully to the success and growth of the company I become a part of.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript
- **Frameworks:** Bootstrap, Tailwind CSS, React (Intermediate)
- **Backend:** (Basic Knowledge): PHP, MySQL
- **Tools:** GitHub, Netlify, Visual Studio Code

Strengths & Goals

- Quick learner with a passion for new technologies
- Strong desire to solve real-world problems
- Long-term goal: Become an AI Engineer
- Team player with a creative and analytical mindset
